Projects

Delivery Management System | *HTML, CSS, Node.js*

- This project is a comprehensive website designed for a prominent online food delivery service. The website emphasizes user engagement and accessibility through a responsive design that adapts seamlessly across various devices. Key features include a well-organized navigation menu facilitating easy access to sections such as Home, Services, Client Section showcasing notable partnerships, and a Contact Us section with a user-friendly form for inquiries. The design aesthetic is complemented by CSS styling, ensuring a visually appealing and functional interface.

Corona Map Explorer | *HTML, CSS, JavaScript, MapBox*

- Developed a geospatial visualization tool using Mapbox GL JS to map and visualize global coronavirus (COVID-19) cases. Integrated real-time data APIs to dynamically update case information. Implemented custom map styling and interactive features for enhanced data exploration. Ensured cross-device compatibility and optimized performance for seamless user experience. Contributed to a vital tool for understanding and tracking the geographic spread of COVID-19.

Skills

Languages: Hindi (native), English
Programming Languages: C, HTML, CSS, JavaScript
Development Frameworks: React.js, Express.js, Bootstrap, Node.js, MongoDB, PUG

Soft Skills

- Team Work
- Punctual
- Time Management
- Active Listener

Extracurricular

- Cricket
- Football
- Travelling
